Rebound Function
in Resistance

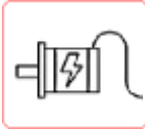

1.8s Quick
Lifting Speed

Long Remote
Control Range-30m

Negligible
Maintenance

24V DC
Brushless Motor

Parking Boom Barrier

WTD-MPB600DC

- The gate movement adopts a crank shaker drive mechanism which has a compact structure, enhanced rigidity, and convenient maintenance and operation.
- When the gate rod is in the horizontal or vertical state, the movement structure is completely self-lock, which can effectively protect the reducer from external force impact.
- Compared with ordinary gate movement, the parts are reduced by about 20% and the faults are less.

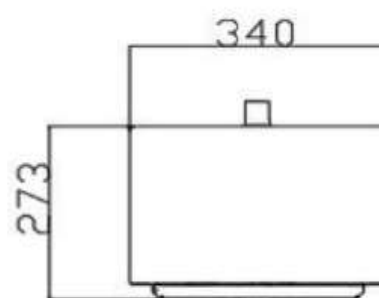

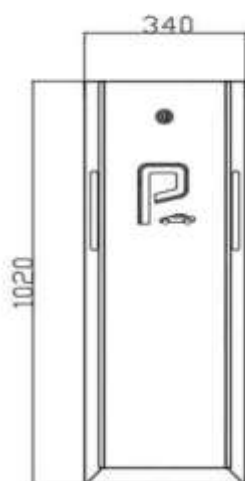

Integrated with Biometric/Face Recognition Device/
Card Reader / UHF Reader/ LPR / ANPR / Traffic Light /
Ticket Dispenser Machine / QR Code Reader , etc.

Specifikaons

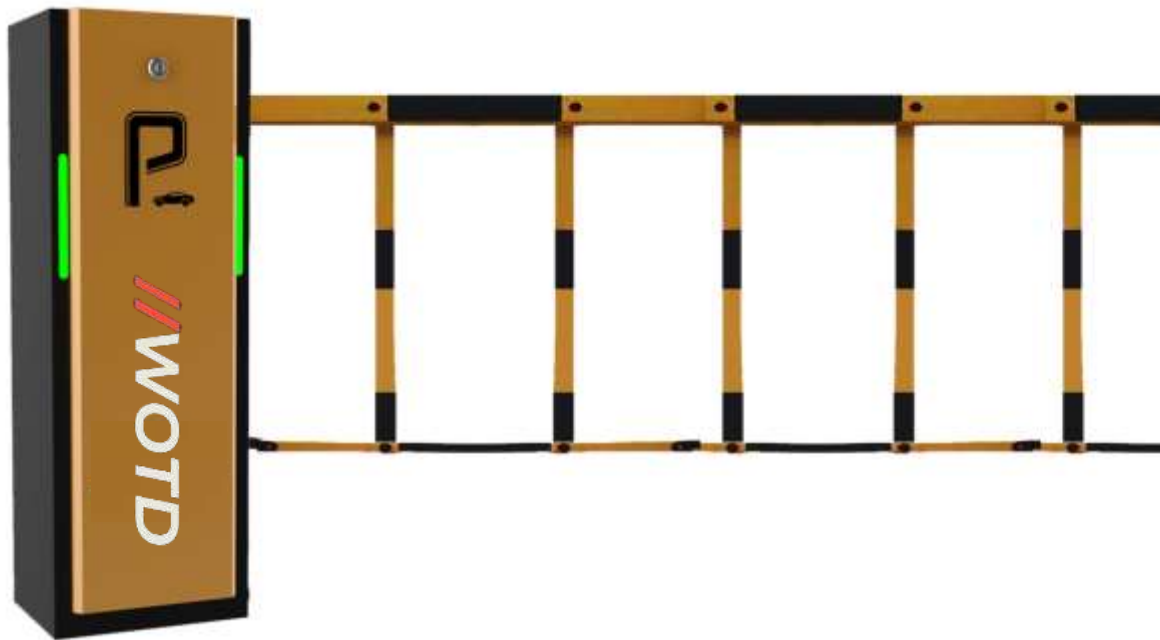

Appearance Dimension	340mm * 272mm * 1020mm
Power Supply	220V $\pm$ 10% 50 ~ 60Hz
Voltage	AC110V/220V
Motor	24V 150w brushless 2-stage variable speed all copper DC motor
Remote Control Distance	$\leq$ 30m
Waterproof Grade	IP45
Working Environment	-15°C ~ +70°C
Box Thickness	Full-thickness 1.5mm
Boom Length	Straight Arm - 6m, Fencing Arm / Folding Arm - 4.5m
Operating Speed	1.2s - 6s adjustable (the specific operating speed is adjusted according to the rod type and rod length)
Motor Capacity	24V DC Brushless Motor

Dimensions
